CORPORATE CAPABILITIES

Fette Compacting America, Inc.

Corporate Description
Fette Compacting America Inc., a leader in precision tablet press technology, is a subsidiary of world-class, Germany-based manufacturer Fette Compacting GmbH. Fette Compacting America offers a variety of services to clients in the United States, Canada, and Puerto Rico, including new and used machine sales, technical assistance, machine installations, training and seminars, validation, maintenance, spare parts, and tooling.

Technical Services
- 35 corporate employees, 14 full-time technicians
- Dedicated spare parts department with the most extensive inventory in the U.S.
- One-day lead time for most major and required wear parts
- Spare parts department offers original equipment manufacturer parts with competitive pricing and annual contracts
- Live support 24 hours/day, 7 days/week
- Level-based training with certification and train-the-trainer programs
- In-house documentation group
- On-site laboratories for FATs, demos, and product testing
- Preventive maintenance and calibration contracts
- IQ and OQ validation packages

Major Products
Fette Compacting America offers a complete line of tablet presses, including:
- Fully automated presses with hands-off, lights-out production
- Full-containment wash-in-place
- High-containment to meet stringent exposure standards
- Reconditioned/pre-owned with warranty
- Patented die table segments that can increase output as much as 25%
- FS12 turret, producing small tablets (up to 11mm) and offering a 40% yield increase

New for 2012: The FE35 Tablet Press

The FE35 is the latest addition to Fette Compacting America's groundbreaking FE Series of tablet presses, which delivers unprecedented levels of productivity, flexibility, and availability. The FE35 is a single rotary tablet press that can be fitted with up to 51 stations to produce up to 367,000 tablets per hour. Other features include:
- Novel internal tablet discharge for guaranteed uninterrupted production
- New flexible vacuum cleaning system for short cleaning cycles
- Turret removal in 15 minutes involving only 10 components and zero tools
- Easily-detachable, FDA-certified high-performance polymer
- 360° access includes unique filling system for simple, safe feeding
- Innovative filling system for easy, reliable feeding and increased product output
- The fastest format and product changeover of all tablet presses in its class
- Maximum yields, minimum product loss, and easy changeover
- Tri.Easy design allows for unprecedented ease of operation, changeover, and maintenance
- Human Machine Interface (HMI) offers intuitive operation for maximum efficiency and security.
