Parker Hannifin Corporation

Parker Hannifin Corporation is a world leader in filtration, motion, and fluid control. We offer proven solutions in filtration, gas generation, fluid management, motion and fluid control, temperature control, and materials development to provide you with a wealth of integrated, multi-technology systems, subsystems, and components that best meet your specifications and expectations. Parker provides end-to-end solutions for pharmaceuticals, biopharmaceuticals, vaccines, and opthalmics. It is expertise that translates into reduced risk, improved performance, and greater value for you, our customer.

Services Include:

- PureCare™ – value added technical support and training on filtration products
- Custom-molded silicone manifolds
- PerfectFit™ – ensures the perfect hose length and connection hardware
- Assembly and kitting services
- Validation consulting and expertise

Parker Hannifin Corporation has numerous manufacturing, laboratory, and sales offices located throughout the world.

Whether for active pharmaceutical ingredients, large- or small-volume parenterals, or biopharmaceuticals, today's bioprocess and pharmaceutical manufacturers are looking for solutions that drive lean processes, streamlined workflow, and faster throughput while meeting stringent quality, environmental and safety regulations. To help with those challenges, Parker offers the following:

- Customized single-use systems
- Disposable filtration products
- Filtration validation products
- Lab automation technologies, including disposable, pre-calibrated temperature, pressure and conductivity sensors
- Buffer and media preparation systems
- Bioprocess bags, vessels, tubing, and valves
- Process automation technologies and systems
- Custom manifolds and mass flow controllers
- Aseptic connections
- Gas generation systems, including zero air and dry air systems
- Sanitary gaskets, seals and o-rings.

Parker provides complete solutions for customers producing APIs, biopharmaceuticals, vaccines, opthalmics, and human and animal nutrition products. We offer our services globally, with strong presence in Europe, China, Japan, India, ASEAN, North America, and Brazil.
