Accugenix® & Endosafe®

Two great brands come together to provide an even stronger testing solution for our customers.

Corporate Description

Accugenix, Inc., a global leader in cGMP compliant contract microbial identification testing, is now owned by Charles River Laboratories International, Inc. This acquisition further strengthens the Charles River Endotoxin and Microbial Detection portfolio of products and services by providing clients with state-of-the-art microbial detection and identification for manufacturing in the biopharmaceutical, medical device, nutraceutical, and consumer care industries. Furthermore, it marks the coming together of two industry leaders focused on providing exceptional QC testing solutions to you, our customer.

Charles River is a leader in providing reagents for endotoxin analysis. The optimized formulation of these reagents provides increased sensitivity, greater linearity, and superior interference resistance. In addition, Endosafe offers an innovative line of rapid testing systems that are utilized worldwide by a diverse customer base for fast, accurate, and reliable results. These assays improve client's operational efficiencies by providing enhanced ease of use and accelerating turnaround times.

Accugenix is the world's leading FDA-registered, cGMP-compliant contract microbial testing service laboratory, specializing in bacterial and fungal identification and strain typing of environmental isolates using the most advanced technologies available. For more than twenty years, the company has served over one thousand global facilities within the sterile and non-sterile manufacturing industries by providing the fastest, most accurate and reliable microbial identification services. Accugenix has tested and identified more microorganisms than any other company or service laboratory, and has developed validated proprietary microbial databases and methods of interpretation unrivaled in the industry.

Technical Products & Services

- Rapid Endotoxin Testing Methods
  - Endosafe®-PTS™
  - Endosafe®-MCS™
  - Endosafe®-PTS™ Gram ID
  - Endosafe®-PTS™ Glucan Assay
- FDA Licensed LAL Testing
  - Kinetic Chromogenic LAL Reagents
  - Gel-clot & End-Point LAL Reagents
  - LAL Accessory Products
  - LAL proficiency program
- Microbial Identification & Strain Typing
  - AccuGENX-ID®
  - AccuBLAST®
  - AccuPRO-ID®
  - AccuGENX-ST®

Facilities

- Newark, Delaware
- Charleston, South Carolina
- Lyon, France

Markets Served

Charles River Laboratories is a global company with offices in the US and Europe. Our customers include the world's top pharmaceutical and biotech manufacturers. Our major markets include:

- Pharmaceutical
- Nutraceuticals
- Biotechnology
- Dialysis and PET
- Medical Device
- Personal Care and Cosmetics

For more information about these products and services, visit us at www.accugenix.com and www.criver.com.
