CORPORATE CAPABILITIES

Corporate Description

Velesco applies nimblocity to your early stage drug development projects, with our proven formulation of expertise, flexibility, dedication, and velocity to clinic.

Velesco is a CMC contract research organization, founded and staffed by pharmaceutical scientists from Pfizer's former Michigan R&D campus. Our team has experience with more than 200 drug development programs.

Our nimble processes and focused expertise enable us to overcome even the most challenging obstacles. Our team is responsive, accommodating, and eager to help you reach the full potential of your compound, quickly and efficiently.

As experts in pharmaceutical analytical chemistry, drug formulation development, and cGMP clinical supply manufacture, Velesco scientists have a proven track record of moving compounds through the critical early drug development process with *nimblocity* and unrivaled success.

Technical Services

Analytical Method Development/Validation
- Stability-indicating methods
- Drug substance and drug product
