OsoBio

General Company Description

OsoBio is a CMO that specializes in delivering injectable sterile liquid, suspension and lyophilized biologic and pharmaceutical products. The company offers significant knowledge and experience in late-phase clinical products and successfully taking them to commercialization.

In the history of its Albuquerque, N.M., facility, OsoBio has manufactured more than 250 distinct commercial presentations in every major therapeutic category. OsoBio effectively manages the risks posed by potent and cytotoxic compounds and DEA schedule II–V substances.

Responsiveness, attention to detail and clear communication are the hallmarks of OsoBio's client care. Its employees are industry veterans who provide innovative solutions to clients' most difficult projects.

Markets Served

OsoBio manufactures biological and pharmaceutical products of the following categories:

- Cardiovascular
- Infertility
- Oncology
- Vaccines
- Fungicides
- Live viruses
- Ophthalmic

With an impressive track record of regulatory compliance and a strong inspection history, OsoBio has received regulatory approvals from agencies in the US, Australia, Canada, Europe, and Mexico.

Services

OsoBio's intensive quality assurance support and project management methodology are second-to-none—assuring you of ongoing, thorough communication and strict attention to meeting timelines and budgets.

OsoBio provides the following services:

- Analytical method development
- Analytical laboratory services and testing
- Analytical validation studies

- Aseptic processing fill–finish
- Emulsion
- Highly potent and cytotoxic manufacturing
- Liquid injectables manufacturing
- Lyophilized injectables manufacturing
- Packaging services
- Phase I–III and commercial contract manufacturing
- Stability studies
- Terminal sterilization.

Facilities

Our 215,000 ft² facilities include:

- Two compounding/formulation areas (four suites)
- Three Grade A aseptic filling suites
- 2 cc to 100 cc vial filling
- Two vial labeling and packaging lines
- 1,200+ ft² of lyophilization capacity
- 130,000 ft² warehouse space
- Inspection: two Pace + 100% Inspection
- Two Weiler labeling machines
- Two Bosch cartoners.

In 2013, OsoBio will bring online a Bosch 10-head pre-filled syringe line, and plans other equipment and capability expansions. Visit osobio.com for up-to-date information.
