CORPORATE CAPABILITIES

Pfizer CentreSource

Corporate Description

Pfizer CentreSource (PCS) is part of world-class pharmaceutical company Pfizer Inc, and a recognized industry leader with capabilities in active pharmaceutical ingredient (API) and dosage form manufacturing. PCS manufactures steroid APIs and antibiotics; supplies GMP custom fermentation services; manufactures and packages finished dosage forms; provides product development, process development, and advanced manufacturing for high potency oral solid drug product; and offers award-winning therapeutic bioprocessing development and manufacturing across microbial and fermentation platforms. PCS is a commercial unit of Pfizer Global Supply (PGS), backed by Pfizer's fully accredited worldwide manufacturing network, quality and compliance standards, and long-term investment in technology and facilities.

Technical Services List

- High Containment Services—Solid Dosage Form
- Steroid APIs—Corticosteroids, Hormonal Steroids, and Antibiotics
- Bioprocessing Services—Microbial/Fermentation Platforms
- Cytosafe®—Oncology Product Packaging
- Blow/Fill/Seal—Sterile Liquid/Solid Dosage Form

Facilities

PCS currently works with eight sites within the Pfizer Global Supply plant network and is exploring offering additional services from other Pfizer plant sites around the world.

Major Products/Services

PCS supplies high quality and high value APIs and intermediates from its chemical synthesis, custom fermentation, and bioprocessing capabilities. High quality solutions in aseptic filling and a suite of highly potent drug product development, manufacturing, and packaging services round out the company's expertise.

Markets Served

Pfizer CentreSource provides products and services globally through its regional offices in:

- Kalamazoo, Michigan, USA
- Brussels, Belgium
- Singapore
