# Veltek Associates, Inc.

### Corporate Description

Veltek Associates, Inc. (VAI), is an EPA registered manufacturing facility located in Malvern, Pennsylvania, USA. VAI focuses on the identification and control of contamination in classified areas. VAI produces and provides services for a complete range of sterile pharmaceutical – grade sanitizers, disinfectants, sporicides, lubricants, buffer solutions, hands free dispensing systems, wipers and clean in place solutions; customer based laboratory services; disinfectant application devices; microbiological environmental monitoring systems and clean disposable garments as well as consulting services.

sales offices located worldwide. The Malvern, Pennsylvania facility houses all of VAI's division, The Environmental Control Monitoring division, The Disposable Products Manufacturing Division, VAI labs and API Consulting Services Division – as well as the shipping and main warehouse area. In addition to its main headquarters and seven satellite offices, VAI services the pharmaceutical and biotechnology industries through its 120 distribution partners.

### Technical Services

VAI is a global leader in the supply of chemicals, environmental monitoring systems, garments and laboratory services for the pharmaceutical and biotechnology industries. As one of the leading consulting firms in the industry for disinfection and environmental monitoring, VAI is equipped to answer the most detailed questions regarding clients' sterilization, decontamination, environmental monitoring and laboratory service needs. VAI Laboratories (the laboratory testing division) was designed to provide clients with microbiological testing services ranging from the identification of microorganisms to antimicrobial effectiveness that prove the effectiveness of disinfectants.

### Facilities

VAI is headquartered in Malvern, Pennsylvania in a state of the art facility and has seven satellite

### Major Products/Markets Served

VAI is a leader in innovation. The company holds several US and International patents on products and product packaging. Its main products from The Sterile Chemical Manufacturing Division include DECON-AHOL WFI, STER-AHOL WFI, DECON-SPORE 200Plus, DECON-QUAT 100, DECON-PHENE, DECON-PHASE, DECON-CLEAN, DECON-CYCLE, HYPO-CHLOR, STERI-PEROX, STERI-SILICON, STEEL-BRIGHT, Cage2Wash and Process2Clean. To compliment the cleaning and disinfection solutions, VAI manufactures the Core2Clean Plus spray/mop/fog system and offers a multitude of traditional mop and bucket systems. The API Consulting Group assists end users through their experienced industry professionals in the areas of disinfection and environmental monitoring. VAI laboratories is a full-service laboratory for identification and antimicrobial environmental monitoring systems such as the SMA micrportable, the SMA one touch Command Centers, the SMA Multilocation digital and mechanical Control Centers, the SMA compressed Air Samplers and the HY Tumble Drum Tester. VAI's Disposable Products Manufacturing Division designs and manufactures sterile lab coats, facemasks, hoods, booties, coveralls, saturated wipers and patented Easy-2Gown garment system.
